

GeneEQUAL Newsletter August 2023

Thank you for reading our newsletter.

You can watch a video of our newsletter [here](#).

This newsletter has 3 messages.

Message 1

GeneEQUAL has a new **research study**.

A **research study** is finding out

- how to make things better.

In our new research study

- we want to talk to high school students with intellectual and learning disability
- about what they want to learn about health, health care choices, genetics
- and how they want to learn it.

You can watch a short video about the study here.

1. You can click this link

<https://vimeo.com/860528971>

2. You can scan the QR code using your smart phone.

When GeneEQUAL talked to adults

- about **genetic** tests and **genetic** health care

many people said

- they wished they learnt more about **genetics** at school.

Genetics is

finding out how things in your body

- make you the way you are.

Knowing about genetics and genetic conditions

- can help people make health care choices and
- live happy and healthy lives.

Many people also told us

- they wished they had learnt more about
- health care choices at school.

In our new study

- Jennifer will talk to high school students.

She is a caring and experienced teacher.

Jennifer will have a friendly chat

- with students who are interested in the study.

She will ask questions like

- What helps you learn at school?
- What do you want to learn in science lessons?

- This chat will take around 30 minutes.
- It will be in person, on Zoom or Teams.

You can share and find out more about the study

- on our [GeneEQUAL website.](#)

	<p>Message 2</p> <p>GeneEQUAL is doing interviews</p> <ul style="list-style-type: none"> • with health care workers • about the GeneEQUAL Educational Toolkit.
	<p>The GeneEQUAL Educational Toolkit</p> <ul style="list-style-type: none"> • is a set of resources to make health care better.
	<p>The Educational Toolkit has</p> <ul style="list-style-type: none"> • how the toolkit was made 5 Easy Read booklets about genetics • 6 videos about talking about genetics • help for health workers about talking about genetics with people with intellectual disability.

	<p>People with intellectual disability</p> <ul style="list-style-type: none">• gave the Educational Toolkit a thumbs up.
	<p>Now we want to hear from health care workers about what</p> <ul style="list-style-type: none">• they think about the Educational Toolkit• other resources they want the GeneEQUAL to make.
	<p>The interviews are done by Chloe</p> <ul style="list-style-type: none">• who is a friendly medical student.
	<p>The interview is</p> <ul style="list-style-type: none">• around 30 minutes.• in person, on Zoom or Teams.

If you are a health care worker and interested in doing an interview or a survey

- you can fill out the quick form on our [GeneEQUAL website](#).

You can email Chloe at

c.molnar@student.unsw.edu.au

We will give you a coffee voucher

- to say thank you.

Message 3

GeneEQUAL has certificates for health care workers.

They are for health care workers who give

- inclusive
- person-centred
- respectful

health care for people with intellectual disability.

Dr Nikhil Mahajan

- received the first certificate.

Dr Nikhil Mahajan is a surgeon at

- John Hunter Hospital in Newcastle.

Dr Nikhil Mahajan

- listens to his patients
- takes time with his patients
- explains things in an easy to understand way.

Congratulations Dr Nikhil Mahajan.

Do you know someone you think should get a GeneEQUAL award?

If so you can

- email us at geneEQUAL@unsw.edu.au
OR
- call us on 02 9348 1601 OR
- write us a letter.

Our address is
GeneEQUAL
c/o Emma Palmer
Centre for Clinical Genetics, Sydney
Children's Hospital
Level 9
The Bright Alliance Building
UNSW Sydney
NSW 2052, Australia

Let us know

- who you want to nominate AND
- why you want to nominate them.

Thank you for reading our newsletter.
