

The GeneEQUAL Research Study

Hi everyone!

We want to let you know

- about a new **research** study

Research means to find out

- what people think about something

We will use this information to

- help others
- make health care better

Our GeneEQUAL research team are

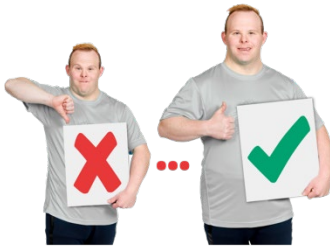

- self-advocates
- parents
- researchers
- doctors and genetic counsellors

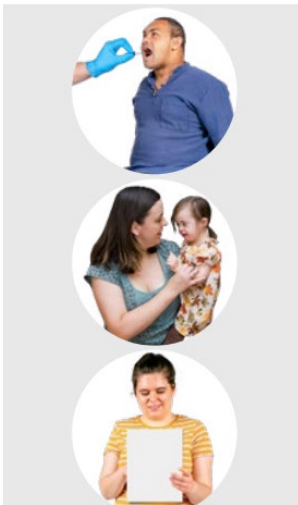

We want to talk with

- people with intellectual disability
- their families, support people and guardians

We want to talk to them about **genetic health care**

- what is good
- what is bad

Genetic health care is for people who

- have a **genetic condition**
- might have a genetic condition
- want to know more about genetic conditions and tests

A **genetic condition** can mean that

- your health is different from other people

- you learn in a different way to others

You can talk to us

- face to face
- on Facetime
- on Skype
- on Teams
- on Zoom

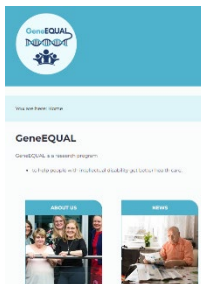

We will talk to you for about

- 30 to 60 minutes

Are you interested in an interview?

- Please call Iva on 0426 959 172 OR
- Email Iva on i.strnadova@unsw.edu.au
