

UNSW
SYDNEY

What is research?

Research means to find out what people think about something.

We then use this information to help others.

It is often people from the university that do the research.

They are called **researchers**.

They sometimes work together with people with disability to do research.

This is called **co production**.

The Disability Innovation Institute at UNSW Sydney has Easy Read information about co production.

You can find them here

www.bit.ly/unsw-co-production

Council for Intellectual Disability made this document Easy Read. **CID** for short. You need to ask CID if you want to use any pictures in this document. You can contact CID at **business@cid.org.au**.
